

ALvita and Tecto Go for storage of Narengin in kerman.**S.khorasany;M.S.of food science and Technology.****kerman Development Investment Co.**

In Iran 1/3 milion ton citrus fruit.

But,in Dustration storage.

afew of citrus fruit damage.That P.Digitatum and P. Italicum are generale present wherever citrus

fruits are produced.severe losses may be incurred if uncontrolled.For loss of damage of 3 ways use.1.benomil 2.tecto Go 3.wax.

citrus fruit handling and marketing is highly dependent upon effective fungicides.away is use of ALivta(sodum diAcetate) that is very effective for damage of mold and fungi
